

Assembly Saint-Sernin Toulouse in struggle¹

Leaflet No.4 (20/10/2010)

Handed out at the demo of Thursday October 21st at 2,000 copies

Against Sarkozy's determination, and his media and state police as well to break the current struggle and discredit it by the most infamous provocations:

**Unemployed, Retired, Precarious,
Workers, High school students, Students,
LET'S AFFIRM OUR UNITY AND LET'S TAKE OUR STRUGGLES IN HAND!**

Mobilization and enthusiasm during the demonstration of this last Tuesday were gigantic. We have the number, we need now to develop the consciousness that it's only while seizing our struggles, through the widest discussion, the merging of all the sectors, the support of high school students, precarious, unemployed and students, that we can really win and impose the will of the majority of the masses.

**LET'S HOLD IMMEDIATELY GENERAL ASSEMBLIES OPENED TO ALL,
LET'S DECIDE ON COMMON ACTIONS THAT MASSIVELY SPREAD THE
STRUGGLE AND SOLIDARITY!**

Let's share the experience of the last pickets and blockages: let's send delegations of support, let's coordinate our efforts. Isn't it finally time to take the struggle to the most massive sectors: Thales, Airbus? Our only "violence" is that to want to generalize the strike. The real violence is that the state generates or provokes.

SOLIDARITY WITH THE VICTIMS OF REPRESSION!

This struggle that we carry on, others share it in Spain or in Greece for example: in all the countries the working class suffers the Capital's demands and its irrepressible thirst of accumulation.

**PROLETARIANS ALL OVER THE WORLD ARE COUNTING ON OUR
VICTORY FOR THEIR STRUGGLES TO COME!**

Let's meet to share information and perspectives of struggle in the GA at the end of the demonstration, but also every evening this week: Bourse du Travail, Saint-Sernin Square at 6 p.m. This leaflet has been written by retired, unemployed, workers and students together before the Bourse du Travail on October 20th 2010.
