

Greece, Spain, Portugal, France, and now the UK... WHO'S THE NEXT?

Like workers, unemployed, students, pensioners... in Greece, Spain, Portugal, France, but also more generally in China, Bangladesh, South Africa, Algeria, Peru and many other regions in the world, proletarians also take to the street in the UK.

Against austerity measures, thousands of young (and lesser young) proletarians ransacked this November 10th the Tories' Headquarter in London and confronted the law and order forces.

We are the "infection in action"... the one that all governments of all countries and from all political tendencies are afraid of! Our specific demands are nothing but the expression of **ONE AND THE SAME MOVEMENT:**

- AGAINST SACRIFICES that Capital's managers try everywhere to impose on us;
- AGAINST SURVIVAL CONDITIONS (housing, health...) everywhere always more deteriorated;
- AGAINST OUR WAGE SLAVERY everywhere more increased (rise in work pace, in working time, work always more destructive for human life...).

Obviously the exploiters and their union lackeys will try to neutralize our demands on the field of reform: negotiation, "social dialogue", or even a change of government (Labour vs. Tories)... to better satisfy Capital's needs!

To satisfy OUR HUMAN NEEDS there is no low-key solution possible:

**Economy is in crisis? Let's finish it off!
LET'S BREAK UNION AND SOCIAL PEACE!**

**Let's spread and deepen our movement!
LET'S SELF-ORGANIZE OURSELVES AT ALL LEVELS!**

**Like in France, let's break isolation between sectors and categories!
Let's block factories, offices, schools, etc.
Let's organize strike pickets and flying pickets!
AGAINST EXPLOITATION, LET'S BLOCK THE ECONOMY!**

LET'S PREVENT THE RETURN TO NORMALITY BY ALL MEANS!

**WHE ARE ONE CLASS, ONE MOVEMENT!
LET'S BE ALL!**
